Fiberglass Diving Board

THE BOARD FOR EVERY SIZE PUBLIC POOL

PROVEN UNBEATABLE FOR MOTELS, HOTELS AND PUBLIC POOLS

Our boards are the safest you can use . . . no twist or torque, faster recovery and a permanent non-slip tread means a safe, fun dive everytime.

Here is how we do it.

- * The full width core of select, laminated Douglas Fir eliminates any torque or twist problems.
- * A molded fiberglass covering completely encases the core providing strength with maximum flexibility.
- * Heavily reinforced with additional fiberglass, molded to the core at the fulcrum area makes this a

board that will give you trouble-free service under heavy continuous use.

- * A mirror smooth finish of color impregnated resins gives this board a lasting beauty that will not fade or deteriorate.
 - * **SANITREAD**-Non-Slip top surface that resists wear. The safest diving surface ever devised.
 - * All 8, 10 and 12 foot long boards are 18 inches wide, 14 and 16 foot boards are 20 inches wide.
- All carry a one year warranty but will last much longer.
