

COMMERCIAL FIBERGLASS SAND FILTERS

"L" Series Commercial Fiberglass Sand Filters

"EMAUX" Commercial Fiberglass Sand Filters are constructed by the latest engineering technology. The improvement of flow ability provides an extra pure water filtration. The Fiberglass winding design allows the filter to have extra strength and resistance to chemical and corrosives.

"EMAUX" Commercial Fiberglass Sand Filters are the most recommendable equipment for the application of Public Swimming Pool, Aquiculture and Industrial Water Treatment.

Standard features include:

- * This filter is manufactured with fiber-glass and polyester resin.
- * Bobbin filter for swimming pool totally anticorrosive.
- * Exclusive design laterals with Side-slotted to draws water evenly and higher flows, better filtration and longer cycles.
- * The filters production is by Computerized System controlled with specially designed machines to ensure flexibility reinforcing the Quality on each Stage of manufacture,
- * Fiberglass reinforced tank with UV resistant surface finish.
- * Internal surface of the tank is finished with water resistant resin.
- * Spherical tank with uniform wall thickness.
- * Uniquely designed Distribution System makes a stable and efficient water flow.
- * Ten-Year Limited Tank Warranty.

* Resistant to salted water.
 Working pressure 2.5 Kg/cm² – 37.5 PSI.
 Testing pressure 3.75 Kg/cm² – 56.25 PSI.

TECHNICAL CHARACTERISTICS

Model No.	L1200	L1400	L1600	L1800	L2000	L2300	L2500
Tank Dia. (mm/inch)	1220 / 48	1400 / 56	1600 / 64	1800 / 72	2000 / 80	2300 / 92	2500 / 100
Height (mm)	1410	1560	1720	1870	2020	2300	2500
Valve height (mm)	900	970	1100	1150	1200	1500	1600
Valve Distance (mm)	340	430	500	530	550	600	650
Valve Port Size (mm)	80	100	100	150	150	200	200
Filter Area (m ²)	1.17	1.54	2.01	2.54	3.14	4.15	4.91
Silica Sand (kg)	560	1900	2600	3240	4000	8200	11500
Design Flow (m ³ /h)	51.60	69.00	90.00	120	141.00	206.04	235.20
