

High Head Magnum Pumps by Jacuzzi.

"The Most Trusted Name In Water"SM

High Pressure to Filter and Clean.

The Magnum pump set the standard for easy service and now we're setting the standard for high pressure performance. Our High Head Magnum has the pressure to filter and drive a pool cleaning system with **NO SECOND PUMP OR BOOSTER NEEDED.**

10 Second Access.

When you're paid by the job, not by the hour, time is money and you don't need anything to slow you down. By incorporating our exclusive Ring-LokTM system into the High Head Magnum, service is a snap. **YOUR HANDS ARE THE ONLY TOOLS YOU NEED.**

1. you have easy access to the see-through cover and strainer basket using only your hands. A simple twist removes the Ring-Lok.TM

2. Simply remove the basket for easy cleaning and removal of debris.

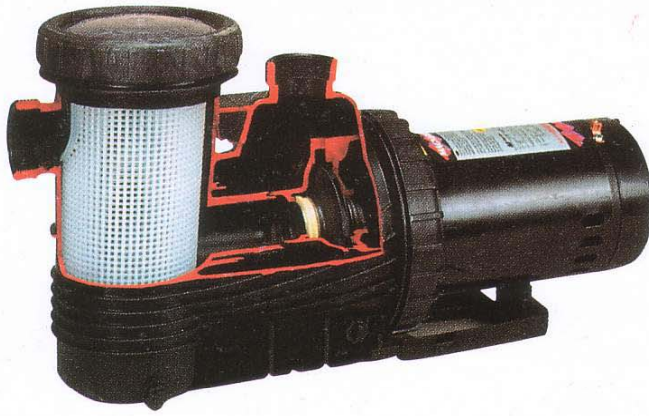

3. The motor Ring-LokTM gives you easy access to all serviceable components by simply unscrewing the threaded ring.

4. The motor assembly pulls away easily. No tools are needed.

MEMBER

Exclusive Strainer Ring-Lok™ gives you and your customers quick and easy access to the 180 cubic-inch strainer using only your hands, no wrench required. The see-through cover allows for visual inspection and provides positive sealing. **Floating eye seal** between closed impeller and diffuser maximizes efficiency. **Impeller/Diffuser** designed for high pressure performance. **Patented air-cooled heat sink** allows pump to run dry without damage to shaft seal. **Exclusive Motor Ring-Lok™** allows access to the impeller, diffuser, seal and motor assembly, without disturbing the plumbing, by simply unscrewing the threaded ring. **One piece case with two convenient drain plugs** for winterizing and built-in base for quieter operation. **180 cubic inch strainer basket** with offset rib design ensures full flow, even when basket is fully loaded. **Jacuzzi's Criptinite Thermoplastic Construction** throughout is heat tolerant and resists corrosion due to weather and chemicals. **Self-priming hydraulic design** provides suction lift up to 10' above water level.

2" NPT Suction and Discharge on all models.
