

If Rembrandt Did
Watercolors,
This Would Be His Palette...

SAm
Spectrum Amerlite

PacFab
INCORPORATED

...and your pool
his newest masterpiece!

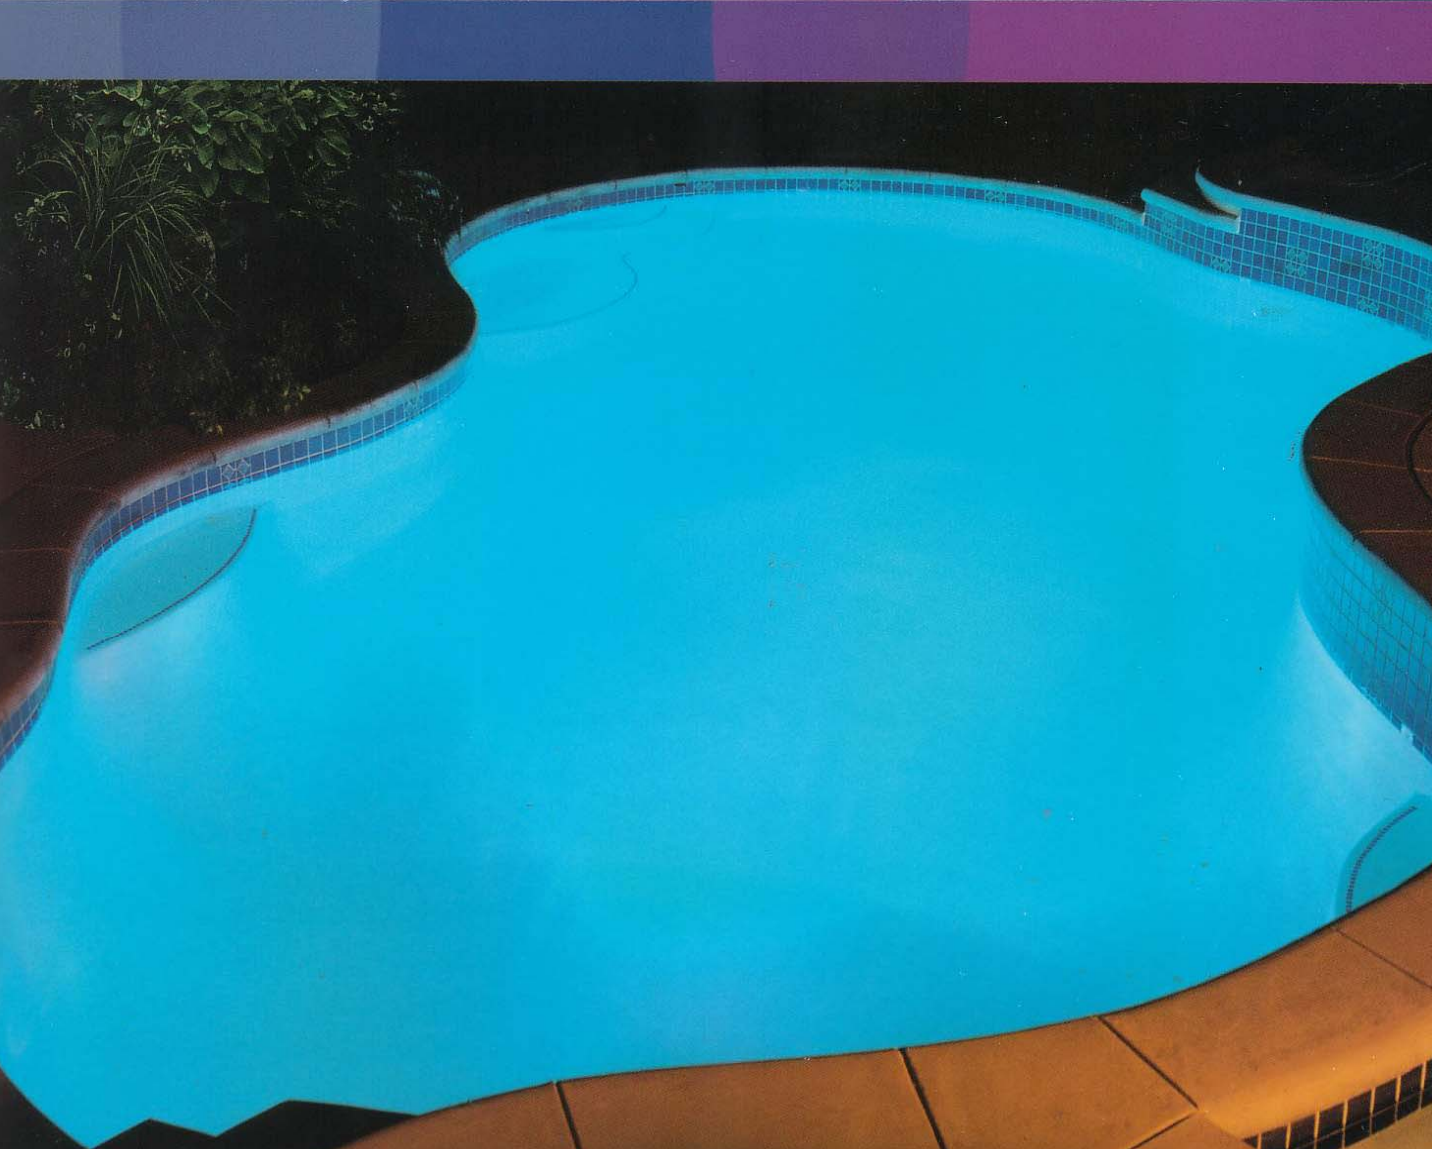

Introducing **SAm** – A Brilliant Choice!

The **Spectrum**
Amerlite (SAm)

from PacFab is an underwater color light
that represents a major technological breakthrough
in swimming pool lighting. **SAm** gives you the
freedom to choose from an almost infinite
number of color combinations. Simple
to install and easy to use, **SAm**
delivers excitement!

All photos represent lighting brilliance for smooth, white pool surfaces.
Water depth will effect actual color. Colored pool surfaces will reduce underwater brilliance
and color benefit. **SAm**'s white light is comparable to our 300 watt Amerlite.

**Spectacular Colors Are In
The Mix With A Simple Flip
Of The Switch**

Turn on *SAm* and you'll be amazed at the variety of rich colors right at your fingertips. Can't decide on what color to choose? Then sit back and enjoy the show while *SAm* orchestrates a continuous procession, from one luminous hue to the next, parading you through the color spectrum. With twin-tungsten halogen bulbs engineered into every unit, *SAm* brings new life to any pool.

***SAm's* Advanced Technology
Is A Stroke Of Genius**

Actually, smart technology is at the very heart of *SAm*. For installations with more than one light in the pool, all *SAm* lights will roll in color synchronization. Whether it's one light or two, *SAm* will transform a typical residential pool into a color-brilliant, pool designer's masterpiece. Looking for a backyard renaissance? *SAm's* advanced design makes it easy by replacing any of our full-size American, PacFab or Purex lights.

**Brush Up On Fun,
Excitement And Safety**

Because of its incredible versatility and superior performance, *SAm* is sure to be the center of attention and the life of any party. In fact, over the past three decades, more than 3 million families have trusted PacFab to provide them with a safe and exciting nighttime pool environment.
